Final Project Manual 4
(Gargi Gajjar -01745061)

FinalProject.html:

This is the main file of this project. It will show front view, side view and top view of the house.

User can input the size and margins of the house.

It will show multiple views, one point view or isometric view of the house.

It will also show the rotating 3D object of a house.

Style.css:

This is the file which contains the css data for the rotating house object.
